

Adobe Dreamweaver CS5 - Essentials

This two-day interactive training provides web designers with the knowledge and hands-on practice they need to be able to build and manage professional web sites. The course focuses on understanding web terminology as well as the concepts required to create a web site that can evolve to meet a client's requirements. Use of CSS (Cascading Style Sheets), Flash and the creation of web forms is also introduced to provide a solid understanding of the features of Adobe Dreamweaver CS5.
